

AT THE POINT

The new Perception P170 Stereo Set consists of two factory-matched small diaphragm condenser microphones with cardioid polar pattern. It extends our successful Perception series and targets the home recording market, small rental companies and live clubs. The microphone pairs are selected from a large quantity of individual microphones to create matched pairs enabling for stunning and convincing stereo recordings. Typical applications are ensemble recording, drums, acoustic instruments, A/B and X/Y stereo miking.

HIGHLIGHTS

- » **Professional Stereo Set for studio and on stage applications**
- » **Small diaphragm true condenser microphone with cardioid polar pattern.**
- » **Switchable 20 dB preattenuation pad**
- » **Heavy-duty, roadworthy, all-metal construction**
