

D 3800^M / D 3800^{MS}

H A Harman International Company

EMOTION | TriPower Series Dynamic Cardioid Microphone

Description

The AKG Model D 3800^M is a rugged dynamic supercardioid microphone intended for on-stage vocal pickup. The microphone utilizes AKG's patented VariMotion system that allows the response of the transducer to be tweaked during its molding process and features a diaphragm of varying thickness. Its polar pattern is uniform with frequency, and response has been tailored at mid and high frequencies to deliver improved speech intelligibility.

The microphone capsule is shock-mounted using AKG's Double-flex shock mount system and is protected by an easily-removable wire mesh grille. The D 3800^M also incorporates a humbucking coil to minimize noise from electrical interference. The D 3800^M has a modular output which allows the microphone to be used with a standard non-switched or with a silent on-off switch (D 3800^{MS}) with 3-pin XLR-type output or with the AKG TM 40 module to create a wireless microphone compatible with WMS 40 series receivers. The D 3800^M's smooth triangular shape and soft-touch paint finish makes it secure and comfortable to hold. The lightweight body is die-cast zinc alloy and has a black matte finish for minimum reflection and glare.

Specifications

Transducer type:	Dynamic pressure gradient
Frequency response:	50 - 20 kHz
Polar pattern:	Supercardioid
Impedance:	600 ohms
Recommended load impedance:	>2000 ohms
Equivalent noise level:	18 dB (A) to DIN 45412
Output connector:	XLR-M
Sensitivity:	2.5 mV/Pa; -52 dB (re 1 V/Pa)
Sound pressure level for 1% (3%) THD:	147 dB SPL (156 dB SPL)
Environmental operation:	
Temperature:	-10°C to +65°C
Maximum relative humidity at +20°C:	90%
Size:	Maximum diameter: 2.0 in. (50 mm) 7.3 in. length (186 mm)
Net weight:	10.4 oz. (290 g)
Shipping weight:	2.1 lbs. (970 g)
Accessories included:	Sound tools case, SA 61 stand adapter
Optional accessories:	W 23 foam windscreen

Features

- Response tailored for on-stage vocal and instrument pickup
- Accurate supercardioid pattern for added immunity to feedback
- VariMotion technology delivers incredibly consistent performance
- High sensitivity (2.8 mV/Pa) resulting from use of high-energy neodymium-iron-boron magnet
- Interchangeable "M" connector module for switched (D 3800^{MS}) or wireless operation
- Light-weight die cast metal body with black matte finish
- Removable/replaceable grille assembly for easy cleaning

Architects and Engineers Specifications

The microphone shall be a dynamic type with a supercardioid pickup pattern. Sensitivity shall be no less than 2.5 mV/Pa, and the maximum operating level for 3% THD shall be no less than 156 dB SPL. The maximum diameter of the microphone shall be no greater than 2.0 in., and the microphone length shall be no greater than 7.3 in. Microphone net weight shall be no greater than 10.4 oz. The

microphone shall have switchable output modules that permit the selection of a standard non-switched output, a module incorporating a silent on/off switch or the AKG TM 40 module that turns the microphone into UHF wireless system used with AKG WMS 40 Series receivers. The microphone shall be the AKG Acoustics Model D 3800^M (D3800^{MS}).

Graphical Data

Limited Warranty

AKG Acoustics warrants AKG products against defects in material or workmanship for a period of two years from the date of original purchase made on or after January 1, 2002, and agrees to repair or, at our option, replace any defective unit without charge for either parts or labor. AKG Acoustics grants a three-year warranty covering material and labor for the following condenser microphones purchased on or after July 1, 2003, including the C 12VR, C414B-ULS, C 414B-TLII, C 426B, Solidtube; C 4500B-BC; C 4000B; C 3000B; C 451B; C 2000B; C 1000S, the C 480B and the Ultra-Linear Series capsules (CK 61, CK 62, CK 63, CK 69), the SE 300B

and Blue Line capsules (CK 91, CK 92, CK 93, CK 94, CK 98). This warranty is valid for AKG products purchased within the United States for the original purchaser only. The purchaser's Bill of Sale will serve as proof of sales and warranty validity in the U.S. Shipment of defective items to AKG for repair will be at the customer's own risk and expense. AKG will assume the return shipping cost for all items repaired under warranty.

IMPORTANT: This warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, the affixing of any attachment not provided with the product, loss of parts, or connecting the product to any receptacle other than specified.
